Edition A verification

Oladapo Olaniyan | FIN-43900 Project 1 | Updated October 17, 2026

APPROVED FOR USE - Oladapo Olaniyan reports that the TA said the copy used is acceptable as long as the information is the same. This is student-reported verbal guidance; no written TA message is claimed.

Verification

Brightspace receipt 22599005 records the September 1, 2026 submission. The receipt-linked file and receipt are preserved as the original submission evidence. Their SHA-256 record is retained in the project documentation for traceability.

The working package uses the same information under the TA's reported condition. The project does not represent a different document as the original submitted file.

Current evidence

Item	Status	Location
Original submission evidence	Preserved	Receipt and receipt-linked file
TA guidance	Approved use when information is the same	Student-reported verbal clarification
Working material	Used under the reported condition	Edition B research-evolution record

This page summarizes the verified submission evidence and the reported TA guidance for the working package.
